how to draw digital art in photoshop ready to learn then this book is for you what is digital art digital art is an artistic work or practice that uses digital technology as an essential part of the creative or presentation process there are drawings made on paper that are scanned in and changed in any way on the computer photographs that are modified 3d characters created using a computer are all examples of digital art digital art brings together art technology math and science it requires a creative spirit and the knowledge of art design and computers the digital artists must be able to move easily between the worlds of art science math and technology artworks are considered digital painting when created in similar fashion to non digital paintings but using software on a computer platform like adobe photoshop coral painter on a pc or mac and digitally outputting the resulting image as painted on canvas traditionally art was considered to be painting drawing or sculpture physically produced by the hand of the artist however the traditional definition of art has expanded beyond paintings and drawings to encompass different forms of artistic production that include digital and computer generated designs there are even museums that are solely dedicated to showcasing different forms of digital art digital art is fast becoming considered a reputable form of art that is a growing part of today s society it is derived from the concept of traditional art forms but with the components of new technology art has crossed all boundaries because it is one of the few things where the meaning can be solely defined by the viewer the advancements in digital technology allow the artist to create a piece that can now be seen and appreciated all over the world digital art has not only expanded the defining of art but has increased the accessibility of art to the world welcome to how to draw digital artwelcome to how to draw digital art ready to learn how to draw on the computer like a real professional then take a peek inside

like this book give a feedback and get a free book all instructions on the last page drawing is probably one of the oldest forms of art in human history humans have been drawing pictures since some ancient man drew something on the ground or on the walls of his cave these images were representations of their life the very first drawings may have been drawn using a stick or a rock their canvas the walls of the cave they dwell in there are many examples of cave paintings portraying animals and humans some also show the activities of these ancient humans the pictures we have drawn have evolved along with the human brain as the brain grew more sophisticated so did the drawings and pictures some

became more realistic showing what the artist sees in reality others tried to draw and paint the emotions they have there have been scores of great painters in history they have created wonderful awe inspiring and truly magnificent works of art as time moved forward technology developed and progressed so too did the tools and mediums that were used for drawing humans progressed from traditional paints and canvas to one of this age
