the syntax of dutch will be published in at least seven volumes in the period 2012 2016 and aims at presenting a synthesis of the currently available syntactic knowledge of dutch it is primarily concerned with language description and not with linguistic theory and provides support to all researchers interested in matters relating to the syntax of dutch including advanced students of language and linguistics the volume adjectives and adjective phrases discusses the internal make up as well as the distribution of adjective phrases topics that will be covered include complementation and modification of adjective phrases comparative and superlative formation the attributive predicative and adverbial uses of adjective phrases special attention is paid to the so called partitive genitive construction and the adverbial use of past passive participles and infinitives

the syntax of dutch aims at presenting a synthesis of the currently available syntactic knowledge of dutch it is primarily concerned with language description and not with linguistic theory and provides support to all researchers interested in matters relating to the syntax of dutch including advanced students of language and linguistics syntax of dutch verbs and verb phrases consists of three volumes volume 1 opens with a general introduction to verbs including a review of various verb classifications and discussions on inflection tense mood modality and aspect this is followed by a comprehensive discussion of complementation argument structure and verb frame alternations volume 2 continues the discussion of complementation but is more specifically focused on clausal complements the reader will find detailed discussions of finite and infinitival argument clauses complex verb constructions and verb clustering volume 3 concludes with a description of adverbial modification and the overall structure of clauses in relation to e g word order verb placement wh movement extraposition phenomena scrambling etc

research on spontaneous language acquisition both in children learning their mother tongue and in adults learning a second language has shown that language development proceeds in a stagewise manner learner utterances are accounted for in terms of so called learner languages learner languages

of both children and adults are language systems that are initially rather simple the present monograph shows how these learner languages develop both in child L1 and in adult L2 Dutch at the initial stage of both L1 and L2 Dutch learner systems are lexical systems this means that utterance structure is determined by the lexical projection of a predicate argument structure while the functional properties of the target language are absent at some point in acquisition this lexical semantic system develops into a target like system with this target like system learners have reached a stage at which their language system has the morpho syntactic features to express the functional properties of finiteness and topicality evidence of this is word order variation and the use of linguistic elements such as auxiliaries tense and agreement markers and determiners looking at this process of language acquisition from a functional point of view the author focuses on questions such as the following what is the driving force behind the process that causes learners to give up a simple lexical semantic system in favour of a functional pragmatic one what is the added value of linguistic features such as the morpho syntactic properties of inflection word order variation and definiteness

In this book Hinterhölzl provides a comprehensive study of three salient phenomena of West Germanic namely scrambling remnant movement and restructuring and discusses their interrelatedness in particular restructuring is shown to break down into remnant movement of the major phases of the infinitival clause accounting for the formation of verb clusters and the transparency of restructuring infinitives

This book is an introduction to the syntactic structures that can be found in the Germanic languages the analyses are couched in the framework of HPSG Light which is a simplified version of HPSG that uses trees to depict analyses rather than complicated attribute value matrices the book is written for students with basic knowledge about case constituent tests and simple phrase structure grammars advanced BA or MA level and for researchers with an interest in the Germanic languages and or an interest in head driven phrase structure grammar sign based construction grammar without having the time to deal with all the details of these theories
